

CLAIMS

What is claimed is:

1 1. An inflatable toy game set that is used by a
2 plurality of players, comprising:
3 an inflatable, fully collapsible sealed housing; and,
4 at least one game piece that is manipulated by the
5 players to interact with said inflatable, fully collapsible
6 housing in a game where at least one of the players wins.

1 2. The toy game set of claim 1, wherein said
2 inflatable, fully collapsible sealed housing is shaped as a
3 tree and said game pieces are shaped as monkeys that can be
4 hung from said inflatable, fully collapsible sealed tree
5 shaped housing.

1 3. The toy game set of claim 1, wherein said
2 inflatable, fully collapsible sealed housing is shaped as a
3 bowl and said game pieces are shaped as balls that can be
4 removed from said inflatable, fully collapsible sealed bowl
5 shaped housing.

1 4. The toy game set of claim 1, wherein said
2 inflatable, fully collapsible sealed housing is shaped as a
3 gumball machine and said game pieces are sticks that can be
4 removed from said inflatable, fully collapsible sealed
5 gumball machine shaped housing to release one or more balls
6 within said inflatable, fully collapsible sealed gumball
7 machine shaped housing.

1 5. The toy game set of claim 1, wherein said
2 inflatable, fully collapsible sealed housing is shaped as a
3 pig and said game pieces are shaped as food that can be
4 bounced into said inflatable, fully collapsible sealed pig
5 shaped housing.

1 6. An inflatable toy game set, comprising:
2 an inflatable, fully collapsible sealed tree shaped
3 housing;
4 a plurality of monkey shaped game pieces that can be
5 hung from said inflatable fully collapsible sealed tree
6 shaped housing; and,
7 a spinner.

1 7. The toy game set of claim 6, wherein said
2 inflatable, fully collapsible sealed tree shaped housing
3 has color coded branches and said spinner contains color
4 coded areas that correspond to said branches and numbers
5 that indicate the number of monkey shaped game pieces that
6 are to be hung from said inflatable, fully collapsible
7 sealed tree shaped housing.

1 8. An inflatable toy game set, comprising:
2 an inflatable, fully collapsible sealed bowl shaped
3 housing;

4 a plurality of balls located within said inflatable,
5 fully collapsible sealed bowl shaped housing, each ball
6 having a letter indicia;

7 a plurality of trays that support said balls;

8 a scoop that can remove said balls from said
9 inflatable, fully collapsible sealed bowl shaped housing;
10 and,

11 a plurality of word cards, each card provides a word
12 that is to be spelled by said balls removed from said

13 inflatable collapsible sealed bowl shaped housing and
14 placed in said trays.

1 9. An inflatable toy game set, comprising:
2 an inflatable, fully collapsible sealed gumball shaped
3 housing that has an inner chamber and a plurality of
4 apertures;
5 a plurality of sticks that can be inserted into said
6 apertures;
7 a plurality of balls located within said inner chamber;
8 and,
9 a bucket that can collect one or more balls released
10 from said inner chamber when one or more sticks are
11 released from said apertures.

1 10. The toy game set of claim 9, wherein one of said
2 balls is a penalty ball.

1 11. An inflatable toy game set, comprising:
2 an inflatable, fully collapsible sealed pig shaped
3 housing with an opening;
4 a bouncer; and,

5 a plurality of food shaped game pieces that can be
6 bounced into said inflatable, fully collapsible sealed pig
7 shaped housing opening with said bouncer.

1 12. The toy game set of claim 11, further comprising a
2 plurality of locators and a simulated mud pit.

1 13. A method for playing with an inflatable toy game
2 set that is used by a plurality of players, comprising:
3 inflating a sealed housing;
4 manipulating at least one game piece to interact with
5 the inflated sealed housing in a game until at least one of
6 the players wins; and,
7 fully collapsing the inflated sealed housing.

1 14. The method of claim 13, wherein the manipulation
2 of the game pieces includes hanging monkey shaped game
3 pieces from a tree shaped sealed housing, the location and
4 number of monkeys hung from the tree shaped sealed housing
5 being determined by a spinner, a player wins when another
6 player hangs at least one monkey that causes the tree
7 shaped sealed housing to tip over.

1 15. The method of claim 13, wherein the manipulation
2 of the game pieces include scooping a plurality of balls
3 from a bowl shaped sealed housing and placing the balls in
4 a tray, each ball having a letter indicia, a player wins by
5 spelling a word with the balls.

1 16. The method of claim 13, wherein the manipulation
2 of the game pieces includes pulling sticks from a gumball
3 shaped sealed housing to release one or more balls from an
4 inner chamber of the gumball machine shaped sealed housing,
5 the balls include a penalty ball that causes a player to
6 return their balls to the inner chamber, the player with
7 the most balls after all the balls are removed from the
8 inner chamber wins the game.

1 17. The method of claim 13, wherein the manipulation
2 of the game pieces includes bouncing a plurality of food
3 shaped game pieces into an opening of a pig shaped sealed
4 housing, the first player to bounce all of their food
5 shaped game pieces into the pig shaped sealed housing
6 opening wins the game.

1 18. The method of claim 17, further comprising
2 spinning a spinner to determine a location from which to
3 bounce the food shaped game pieces.
